

TIME MANAGEMENT (ONE DAY)

Would you like to become less busy and more productive?

Our Time Management workshop can help you achieve this along with becoming more organised, less stressed and more motivated. You've all heard the expression 'Time is money'. Well actually, time is more valuable than money because time is a non-renewable resource. Time management training most often begins with setting goals. These goals are recorded and may be broken down into a project, an action plan, or a simple task list. Activities are then rated based on urgency and importance, priorities assigned, and deadlines set. This process results in a plan with a task list or calendar of activities.

Course Content

Setting SMART Goals

- The three P's
- The SMART way
- Prioritizing your goals
